```c
student check_data;
int n = 0;

f = fopen("student.txt", "r");

while (fscanf(f, "%s", check_data.name) != EOF)
{
    n++;

}
```

```c
student check_data;
int n = 0;

f = fopen("student.txt", "r");

while (fscanf(f, "%s", check_data.name) != EOF)
{
    n++;

    for (int i = 0; i < 3; i++)
    {
        fscanf(f, "%f", &(check_data.score[i]));
    }
}
```
